

THE GREEN RIVER TRAIL

[Correspondent of the Louisville Courier.]
GLASGOW, Ky., Oct. 1, 1858.
Editors Louisville Courier:—This usually quiet city during the last week presented a scene of interest unparalleled to lovers of gait, fetes, cotillions, and such like. CH.

parties and concerts, followed in rapid succession by the exhibition of which was eminently worthy of the interest displayed in its proceeding by a large number of persons. The exhibition was held in the North and continued four days, presenting an exhibition without precedent, superior to any of its former ones. The exhibition was held in the North and continued four days, presenting an exhibition without precedent, superior to any of its former ones.

The second day was exhibited the cattle and reduce, and spoke favorably for the energy and adaptiveness of our farmers.

The third and fourth days were unmistakably by far the most interesting, as was plainly demonstrated by the high excitement which pervaded the dense throng.

All the rings were superbly excellent; the display of harness stallions was superlatively splendid, and the number of contestants so numerous and so nearly allied to perfection, that the contest was a grand one.

The fourth and last day was one eminently beautiful to behold. Not a cloud dotted the horizon, and the sun showered his radiant golden beams on a spacious amphitheater filled to overflowing by a large crowd, estimated at about 8,000. The amphitheater was brilliant with the beauty and chivalry of Kentucky. The

"The excitement of the arena was a thrilling one, the exciting whirl of wheels, the clanking of the straps of the harness, the tramp of the hoofs, and the cheering of the excited multitude, as they landed a favorite animal, tended to arouse excitement to its highest pitch. With clucking necks and hoofs spurning the sod as they proudly snuffet the breeze, came forth the race chasers. Among the number was glorious Gray Eagle, whose fleet foot has never been surpassed, and whose noble, powerful build, and who has never essayed a heat but to win—prize for triumphing over the most noted coursers of the turf" of the day; and numerous others renowned in the sporting annals.

The display of blooded stock was superb, and exceeded, without comparison, by far any former exhibition. The finale of the proceedings was announced by offering a premium to the best horseman of a \$30 silver basket. This was a scene eminently interesting to all.

Many were the fair youths and brave men that entered the lists of competition; many proudly and gracefully spurred their splendidly caparioned steeds around the arena, confident of a tri-

And we noticed with feelings of pride and pleasure, among the competitors, our accomplished friends and graceful riders, Wm. R. Bates and Smith Taylor, Esq., who, though not awarded the premium, did justice to themselves and honor to the occasion.

The premium was bestowed on the gallant Dr. Withers, to whom has been awarded four premiums at different fairs in the State, for his graceful horsemanship, and the certificate to Mr. Mar-

Our city during the fair was filled with distinguished visitors, among whom we noticed the name of the accomplished and talented scholar, W. G. Thompson, Esq.

Henry County Resolutions.

At a meeting of the Democratic party, held in Newcastle, Henry county, on the 3d day of October, 1858, county court day, Squire Robbins was made chairman, and M. B. Pearce, secretary.

The chair stated that the object of the meeting was to appoint delegates to the ensuing State convention, to be held on the 8th of January next.

On motion, H. Skinner, J. P. Smith, H. M. Buckley, J. G. Leach, and C. M. Matthews, were appointed to draft resolutions, etc. Whereupon the following were reported and adopted:

Resolved, That we have undiminished confidence in the President of the United States, and hereby reendorse the national Democratic platform of 1896, ad-

Resolved, That we approve of the late action of our State committee, fixing the 9th of January next, as the day on which our State convention shall meet. That the following delegates are appointed to represent our county in said convention: R. L. Ricketts, J. W. Bashaw, Billy Smith, J. M. Barbour, Powell Hill, E. T. Long, Richard Allen, John James, W. W. Martin, Washington Perkins and Henry Jermond; and that they go without instruction, leaving them free to act as in their best judgment will promote the success of our party and interests of our State.

Resolved, That the proceedings of this meeting be published in the Louisville Democrat and Courier.

SQUIRE ROBBINS, Chairman.

M. B. PEARCE, Secretary.

All Sorts of Paragraphs.

THE LATEST STRIKE.—The white prisoners in the "chain gang," at Richmond, Va., have "struck" against street work.

This is about equal to a Printers' "Union" strike.

John F. Housewright and John Hackett were arrested in New York on Monday, and held to bail, on a charge of winning \$330 at faro, from a drover named Benjamin F. Hibler, residing at Paris, Kentucky.

The dispatch of Gen. Cass to Gen. Lamar, respecting Nicaraguan affairs, is said to be one of the ablest papers ever sent from the State Department.

LIENANT. Maury announces that he will lecture during the winter on the Atlantic telegraph. His charge will be \$120 a night and expenses.

LAFAYETTE, IND., Oct. 5.—The Toledo, Wabash and Western Railroad was sold at auction this morning, and purchased by Mr. Boody, former president of the road, for \$1,000.

TOBACCO INSPECTIONS.—During the year ending the 30th ult., 44,505 hogsheads of tobacco were

ROCK ISLAND, ILL., Oct. 5.—An attempt was made last night to burn the railroad bridge across the Mississippi. A flatboat filled with combustible material was fired, and succeeded in starting a fire on the bridge.

A fire broke out in a room of the State Capitol, Columbus, Ohio, on Tuesday, which destroyed six hundred volumes of public documents. The only complete set extant of documents from the first organization of the territorial government to the present time, were totally ruined. These documents were of great value as

records, and it will be impossible to replace them. Their real value is incalculable, though probably the whole lot would not have sold for \$100.

THE \$100,000 PRIZE.—Henry Mails, the clerk in San Francisco, who purchased the ticket that drew the \$100,000 prize in the Havana lottery, only a day or two before the arrival of the steamer, disposed of five-eighths of his interest in the ticket, and therefore he himself holds only three-

eighths, or equal to \$37,500. The holders of the remaining five-eighths are all poor people and laborers, either German or French. Some of them were almost crazy at their good fortune.

 The farm of Henry Parker, deceased, five miles from Paris, on the Maysville pike, was sold at auction, last week, at \$90 30 per acre.

GOOD DESCENT.—It is a question whether being called "the son of a gun" should not rather be

FINANCIAL.—We understand that exchange on New York at Memphis is $\frac{1}{2}$ discount. This will probably cause a demand for Tennessee currency.

SUPPOSED TO BE LOST.—The steam yacht *Fire Fly*, which was bought sometime ago from Howell & Co., of New York, by the government, for the Great

SCREW VS. PADDLE—The superiority of the screw to the paddle for steamers has been tested in England. The paddle steamer *Malta*, which only ran 8 knots an hour, was changed to a screw and easily made 15½ knots in the same time.

The Indiana State Fair is in full blast at Indianapolis. On the first day the receipts amounted to over three thousand dollars.

The editor of the Paris Flag, who was present at the State fair, says, in his last issue, that he was more than pleased with the exhibition, the hospitalities, and the ladies.

The river was at a stand yesterday, with about 34 inches water in the canal. The weather was warm before daylight, yesterday, with a heavy rain, but it cleared off quite cool, with a prospect of frost last night.

By dispatches from Pittsburgh, at noon yesterday, news that the river was falling, with but 3 feet water in the canal. Another rise, however, from that quarter may be expected.

The river was slowly at Cincinnati, yesterday, and business there was not much. The late rise from the Allegheny, that stream having risen over two feet, and at Wheeling the river had risen over three feet.

The rise was a great help to Pittsburgh, as it stopped the flatboats, and will set the propeller fleet in motion.

The following, in reference to the Western river and a steamboat accident, we copy from St. Louis exchanges of yesterday.
